

# 9 Organ dan Fungsi Yang Anak Belajar

Dalam "My Amazing Body" Unit Study

**1 HEART**  
(Jantung)

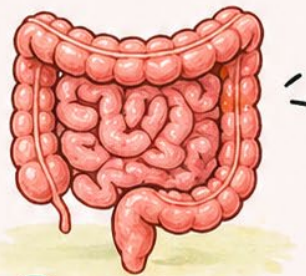

**2 LUNGS**  
(Paru-paru)

**3 BRAIN**  
(Otak)

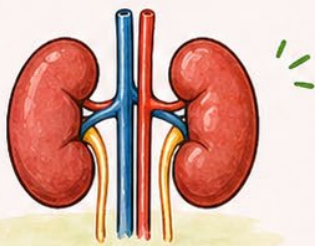

**4 STOMACH**  
(Perut)

**5 INTESTINE**  
(Usus)

**6 LIVER**  
(Hati)

**7 KIDNEYS**  
(Buah Pinggang)

**8 PANCREAS**  
(Pankreas)

**9 BLADDER**  
(Pundi Kencing)

# BRAIN

(Otak)

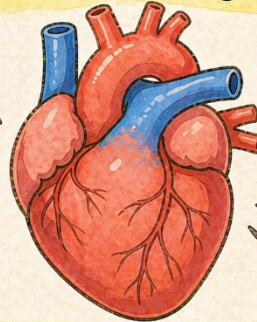

- ➔ Mengawal pergerakan dan fungsi badan
- ➔ Membantu kita berfikir dan mengingat

My brain controls my body by sending signals and helping me think. ♥

HomeschoolHanis ♥

# HEART

(Jantung)

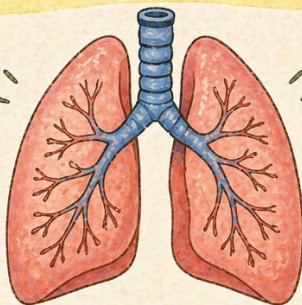

- ➔ Mengepam darah ke seluruh badan
- ➔ Menghantar oksigen ke setiap sel

My heart pumps blood to deliver oxygen to every cell.

HomeschoolHanis ♥

# LUNGS

(Paru-paru)

- ➔ Membantu kita bernafas
- ➔ Mengambil oksigen dan menyingkirkan karbon dioksida

My lungs help me breathe by taking in oxygen and removing carbon dioxide.

HomeschoolHanis ♥

# STOMACH

(Perut)

- ➔ Menyimpan makanan sementara waktu
- ➔ Menghancurkan makanan dengan bantuan jus penghadaman

My stomach stores food and mixes it with digestive juices.

HomeschoolHanis ♥

# INTESTINE (Usus)

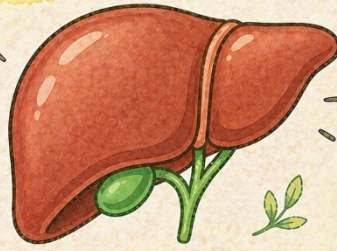

- ➡ Menyerap nutrisi daripada makanan
- ➡ Memberi tenaga dan membantu proses pembesaran

My intestine absorbs nutrients to give me energy and help me grow.

HomeschoolHanis ♥

# LIVER (Hati)

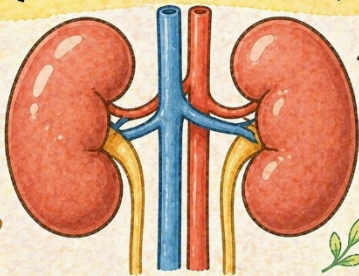

- ➡ Menyingkirkan bahan berbahaya (toksin)
- ➡ Membantu mengekalkan kesihatan badan

My liver removes toxins to keep my body clean and healthy. ♥

HomeschoolHanis ♥

# KIDNEYS (Buah Pinggang)

- ➡ Menapis bahan buangan dan lebih air daripada darah
- ➡ Menghasilkan air kencing

My kidneys produce urine by filtering waste and extra water from the blood.

HomeschoolHanis ♥

# PANCREAS

- ➡ Membantu proses penghadaman makanan
- ➡ Menghasilkan enzim untuk memecahkan makanan

My pancreas helps digest food by producing enzymes that break food.

HomeschoolHanis ♥

# BLADDER

(Pundi Kencing)

- ☞ Menyimpan air kencing
- ☞ Melepaskannya apabila badan bersedia

My bladder stores urine until my body is ready to release it. ♥
